

APPENDIX A.2A: Traditional Knowledge Bibliography

VOLUME A.II: PROJECT INTRODUCTION & OVERVIEW

A.1 Introduction

A.1A Concordance Table to the Executive Committee's Request for Supplementary Information

A.2 First Nations and Community Consultation

A.2A Traditional Knowledge Bibliography

A.3 Project Location

A.4 Project Description

A.4A Tailings Management Facility Construction Material Alternatives

A.4B Information on Alternative Access Road Alignments

A.4C Feasibility Design of the Heap Leach Facility

A.4D Report on the Feasibility Design of the Tailings Management Facility

A.4E Results of Additional Lab Testing of Leach Ore

A.4F Waste Storage Area and Stockpiles Feasibility Design

A.4G Updated Hydrometeorology Report

A.4H Cold Climate Passive Treatment Systems Literature Review

A.4I Open Pit Geotechnical Design

A.4J Laboratory Evaluation of the SO₂/Air and Peroxide Process

A.4K Metal Uptake in Northern Constructed Wetlands

A.4L Revised Tailings Management Facility Seepage Assessment

A.4M Processing Flow Sheets

A.4N Scoping Level Assessment of Casino Property

A.4O Advanced Metallurgical Assessment of the Casino Copper Gold Project

A.4P Production of Environmental Tailings Samples for the Casino Deposit

A.4Q Mine Site Borrow Materials Assessment Report

A.4R Report on Laboratory Geotechnical Testing of Tailings Materials

A.5 Effects Assessment Methodology

MEMORANDUM

Date:	December 1 2014
To:	CMC
From:	Hemmera
Re:	Casino: Bibliography of Reviewed Traditional Knowledge (TK) Literature

This document lists the traditional knowledge literature reviewed by the Hemmera team in order to prepare specific content excerpts for Casino's technical team as they prepare supplementary information for the project proposal. The listing reflects suggestions provided through comments on the YESAB On-line Registry, Hemmera's suggested documents and other sources uncovered through the exercise of retrieving these sources. The focus was first on Northern Tutchone specific information, then on Yukon information and lastly approaches for North of 60. The documents listed below were each reviewed for relevant information as it relates to the topics of vegetation, wildlife, birds and fish, as well as more holistically as they related to traditional ecological knowledge or traditional land use.
