

SAFETY, HEALTH AND ENVIRONMENTAL POLICY

This policy applies to all employees, contractors and site visitors (“workers”) to Casino Mining Corporation’s (“Casino”) Casino Project.

Casino believes that all injuries are preventable and care for our people and the environment is an integral and vital part of our business. To this end we are committed to:

- Providing a safe and healthy work place, ensuring that our workers can perform their tasks safely, with no accidents, injuries or incidents.
- Protecting the environment by mitigating the impact on it.
- Integrating health, safety and environment considerations into our business planning.
- Complying with all applicable laws, regulations and standards.

All Managers shall:

- Ensure that all employees and contractors are trained, enabling them to work competently and safely in completing their work.
- Plan, implement and monitor a comprehensive Safety, Health and Environment program at the Casino Project, to meet our duty of care and ensuring continual improvement.
- Design mine and site facilities that safeguard the health and safety of all employees and contractors, prevent pollution, consider resources and energy, and reduce waste.
- Promote a culture of communication, responsibility and involvement in Safety, Health and Environment.

All workers shall share the responsibility to:

- Work in a healthy and safe manner and take due care of the environment.
- Promptly report any incidents, accidents, unsafe practices or conditions that they witness.
- Actively participate in the support and promotion of Safety, Health and Environment in the work place.

Casino’s objective is to achieve best practice in Safety, Health and Environment performance, placing the highest possible value on life, health, wellbeing, and the environment.
