Environmental Manager

About

Casino Mining Corporation is developing the globally significant Casino Project, Canada's premier copper-gold mine in the Yukon Territory and one of the most economic greenfield copper-gold mining projects in the world.

Become a Part of Our Team

This is an exciting opportunity for a professional to join the Casino Mining Team and be a part of the team advancing a critical minerals project through the highest level of environmental assessment in the Territory!

Position

Environmental Manager

Location

Whitehorse, Yukon, with travel as required to the Casino Project and other locations. Frequent field work at a remote site will be required.

Summary

Reporting to the Director, Environmental and Regulatory Affairs, the Environmental Manager is responsible for leading all activities related to environmental programs, regulatory applications, and compliance.

Responsibilities

- Coordinating and managing compliance of health and safety requirements for environmental field programs
- Critically assessing environmental conditions in the field to evaluate potential environmental impacts from exploration activities
- Supporting compliance audits against permit/licence requirements and social obligations
- Supporting the implementation of environmental monitoring, sampling, and inspection schedules
- Preparing daily and weekly inspection reports and/or reviewing inspection reports from other field staff
- Preparing environmental and health and safety training materials and conducting training for field staff
- Maintaining and auditing environmental equipment as required

- Reviewing technical reports generated by environmental consultants to ensure alignment with corporate goals
- Being responsible for the preparation of permit applications and track approvals, or amendments as required
- Supporting environmental budgeting, cost management, and site and corporate reporting activities
- Administering and managing logistics and resources associated with environmental program execution within allocated budgets
- Supporting the implementation of ESG metric tracking
- Responding to, investigating and managing environmental incidents and supporting the development of effective and practical corrective actions
- Managing an internal team of Environmental Coordinators, and/or contract staff
- Supporting the Environmental & Community team as required
- Supporting the management of the environmental assessment team including external specialists and scientists responsible for conducting environmental, social, economic, heritage, and health assessments based on the environmental assessment
- Supporting the development and review of environmental assessment documents in collaboration with an internal Project Team and external technical experts
- Managing Environmental field crews and consultants to ensure completion of field programs
- Managing the implementation of environmental monitoring, sampling, and inspection schedules, as well as managing and directing staff and consultants' schedules and responsibilities
- Owning accountability for water, waste, wildlife, air, and aquatic health monitoring programs (e.g., fisheries, environmental effects monitoring, land disturbance and biodiversity management), spill response, erosion and sediment control, industrial inspections, Safe Work Procedure (SWP)/Standard Operating Procedure (SOP) development, scheduling, data assimilation, interpretation, and drafting reports
- Implementing or supervising the implementation of the Environmental Management System (EMS) and its component Environmental Monitoring Plans and related Standards of Practices, and other environmental requirements, as directed
- Performing other duties associated with this position as may be required

Education & Experience

- Bachelor's degree in environmental science, Engineering, or related field.
- Minimum 8 years of progressive work experience, including environmental/regulatory affairs.
- Experience with the mining industry
- Experience working with regulators related to permit compliance.
- Working knowledge of the applicable territorial and federal environmental regulations.
- Familiar with current regulatory, environmental assessment, and permitting practices.

- Northern experience is an asset.

Required Skills

- Performing work outdoors in all types of weather, and in an office as required.
- Ability to work in a fast-paced, dynamic environment managing multiple priorities under tight deadlines.
- Demonstrated level of interpersonal skills including the ability to develop trust, negotiate, and manage a variety of external and internal stakeholders.
- Demonstrated high standard of integrity, ethics, judgement and confidentiality.
- Strong oral and written communication skills, including the ability to present ideas clearly.
- Ability to take initiative and work independently.
- Strong attention to detail and organizational skills.
- Ability to identify key technical and business issues and develop innovative solutions.
- Proficient computer skills, with advanced knowledge of Microsoft Office applications (Power Point, Word, Excel) and ability to learn new software.

Diversity

Casino Mining Corporation is committed to diversity and inclusion within our workforce.

Preference will be given to applicants of Indigenous ancestry. Indigenous applicants who do not meet the minimum qualifications are encouraged to apply; a combination of skills and lived experience will be considered.

To Apply

If you are interested in working for Casino and don't meet all of the education, experience or required skills, please still apply as there may be a developmental opportunity for the right candidate.

The base salary offered is determined based on the successful candidate's relevant experience, skills, and competencies and considers internal equity.

To apply, please send your cover letter and resume to employment@westerncopperandgold.com address. Please include 'Environmental Manager' in the subject line of your email response.

While we thank all applicants for their interest, only those selected for an interview will be contacted.

Casino is an equal opportunity employer.

This posting will remain open until the position is filled.
